

Declaration about the Emission of UV and IR Radiation

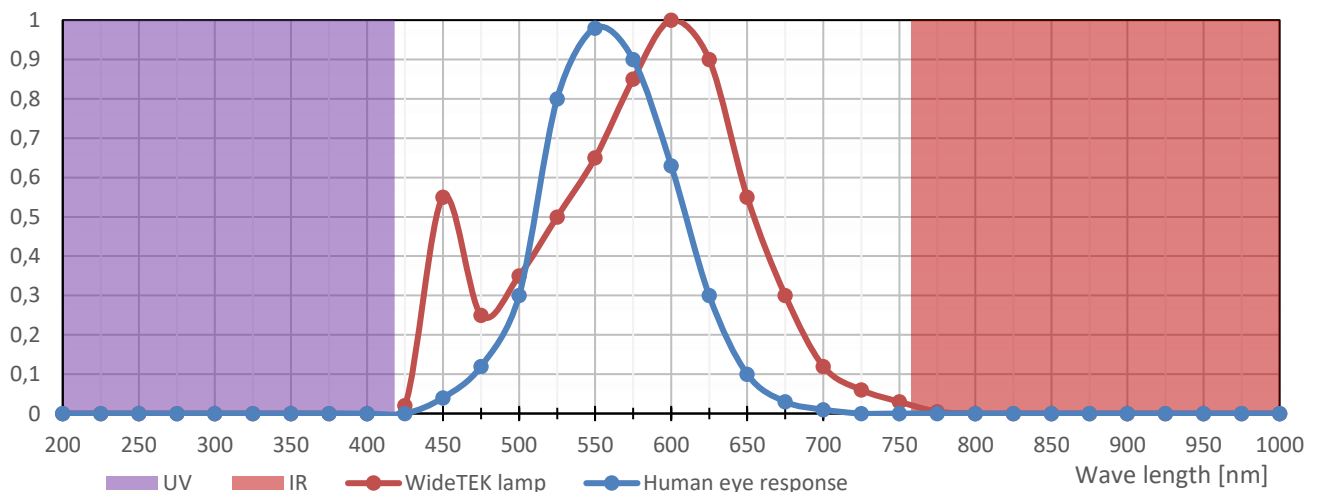

Responsible party:

Image Access GmbH
Hatzfelder Straße 161 – 163
42281 Wuppertal, Germany

Product: **Bookeye, WideTEK**

Serial number: All

All Bookeye and WideTEK scanner LEDs are free from any UV and IR radiation.

The radiated spectrum of the LED light on a WideTEK or Bookeye scanner is between 420 and 760 nm. This is completely inside the visible spectrum of the human eye. There is no emission of UV light (pink area at the left side of the diagram) and no emission of IR (red area at the right side of the diagram), only useful light is emitted (middle section).

Wuppertal, 30th of May 2018

Thomas Ingendoh, President and CEO
